

As always the Germantown Veterans of Foreign Wars Post 9202 continues to make strides in public relations by making this Post a more visible and viable part of our village. On September 23, 2008 Gary Pollpeter the Germantown Fire Chief, received a \$500.00 check from Post Commander Darrell Brown. This will assist the Fire Department in defraying the cost of needed and necessary medical equipment. This donation was made possible by the numerous fund raisers that the local VFW Post was involved in during the year. All members of the post extend their thanks to the citizens of Germantown for their generous monetary support during our fund raisers. This is another fine example of “community spirit” and allows us to give back to the community we all love and cherish. Fire Chief, Gary Pollpeter thanked all the members of the Post who made this contribution possible.
